LEAN ON ME

This is where Teenagers are assigned mentors. Mentoring and support from choosing majors in high-school, choosing careers, timetable setting, & attaining career-goals. In this platform, we address societal ills such as teenage pregnancy, drugs & alcohol abuse, peer pressure and school drop-out. Through this platform one is encouraged to have sense of vision, purpose and belonging.

YQ TOUR

As Youth Quake, we got concerned that most of the students that get their careers shattered are from the poor communities. Hence the initiative of YQ Tour which seeks to address the following problems; learners choosing wrong high school subjects, not meeting required course prerequisite, late or not applying on time making them victims of choosing courses based on availability. Informing learners about different career choices and bursaries/scholarships available for them. Edutainment through stage play that seek to educate learners about real immoral behaviours and peer pressure that destroy the future of many students at Universities.
